HEALTH PERFORMANCE ACCELERATOR by
HMA | HealthEC

Health Performance Accelerator (HPA) pairs the extensive knowledge and experience of **Health Management Associates** (HMA) and **HealthEC** experts to help payers, providers and government entities accelerate improvements in healthcare service delivery and outcomes.

Subject matter experts from HMA and HealthEC collaborated over several months to develop service packages that integrate HMA's healthcare consulting and advisory services and population health management and analytics IT capabilities offered by HealthEC in response to specific high-priority needs. These service packages, also referred to as HPA solutions, were designed to facilitate contracting and accelerate the implementation of programmatic initiatives.

HPA SOLUTIONS HAVE BEEN DESIGNED TO HELP CLIENTS ADDRESS NEEDS IN THE FOLLOWING AREAS:

HEALTH EQUITY
Strategies and applications of health analytics and care management technology to improve the health and well-being of disadvantaged populations through tailored programs and data-based interventions.

COMMUNICABLE DISEASE OUTBREAK MANAGEMENT
Expertise and information technology power improved surveillance and response to better manage communicable disease outbreaks.

SUBSTANCE USE DISORDER PROGRAM SUPPORTS
Strategic insights and analytics tools that help identify target populations and prioritize interventions to improve program design, implementation, management, evaluation, and outcomes.

SUPPORTS TO SMALL/MIDSIZE HEALTH PLANS
Robust business and technology supports that enable these plans to control costs, improve quality of care for members and provide greater program oversight.

VALUE-BASED PAYMENT (VBP) CONTRACT SUPPORTS
Assessments, strategies, and tools to improve a provider-led entity's ability to successfully engage in payment arrangements that optimize quality and value.

MANAGED CARE ORGANIZATION / ACCOUNTABLE CARE ORGANIZATION PERFORMANCE MANAGEMENT
Strategies and modern IT solutions that improve the ability of state Medicaid agencies to manage the performance of managed care organizations (MCOs) and provider-led entities engaged in value-based payment (VBP) arrangements.

HEALTH AND HUMAN SERVICES (HHS) DATA INTEGRATION
Enable the implementation of service integration/ coordination initiatives through the incorporation of client, service, and provider data from multiple HHS programs.

HEALTH PERFORMANCE ACCELERATOR by HMA | HealthEC®

The premise behind HPA is that, in our collective experience, many challenges healthcare stakeholders face are not solved by smart policy OR technology alone: the key to success lies in the effective COMBINED application of policy and technology. Health Performance Accelerator brings together the thoughtful, tailored advice and best-in-class information technology your organization will need to succeed.

» Expert guidance and insightful strategies

» Impactful policies and processes

» Technology solutions customized to fit your needs

» Easy access to the data you need to use in meaningful ways

» Aligned strategies and technology solutions to save time and maximize value

HMA

HMA is a leading independent, national research and consulting firm specializing in publicly funded healthcare and human services policy, programs, financing, and evaluation.
