Michigan Medicaid Managed Care Results Announced

In previous editions of *The Michigan Update* (most recently in August) we have reported on the Michigan Department of Health and Human Services' (MDHHS) release of a Request for Proposals (RFP) to re-procure its Medicaid managed care contracts. The RFP was released in early May with bidder responses due in early August. This procurement is for at least five years, with the possibility of up to three one-year extensions. The total cost of the procurement for five years is estimated to be \$35 billion. On October 13, 2015 the State of Michigan announced the much anticipated results of the re-procurement.

Since the prices paid to the contracted HMOs are set by the state, the health plan selection was based solely on technical scores. The HMOs were required to bid on entire regions, which were configured differently than in the past. The reconfiguration required a number of the HMOs to expand their service areas to meet the "entire region" requirement. The new regional configuration appears in the map below:

Note: Region 2 and Region 3 were required to be bid together. [Read more](#)

***Health Management Associates** is an independent national research and consulting firm specializing in complex health care program and policy issues. Founded in 1985, in Lansing, Michigan, Health Management Associates provides leadership, experience, and technical expertise to local, state, and federal governmental agencies, regional and national foundations, investors, multi-state health system organizations and single site health care providers, as well as employers and other purchasers in the public and private sectors.*
