MEDICAID MANAGED CARE ENROLLMENT ACTIVITY

As of February 1, 2023, there were **2,281,669 Medicaid beneficiaries, including 800,242 Healthy Michigan Plan (HMP) beneficiaries**, enrolled in the nine Michigan Medicaid Health Plans (HMOs). As the table below shows, this is an overall **increase of 288** since January 1, 2023. The number of HMP beneficiaries enrolled in HMOs **increased by 416** and the number of non-HMP beneficiaries **decreased by 128**. As the table below illustrates, while **managed care enrollment growth has slowed, it continues to grow and is 86,798 higher in February 2023 than in February 2022**.

The count of HMP beneficiaries enrolled in the nine Michigan Medicaid Health Plans (HMOs) in February 2023 is **34,316** more than in February 2022. The count of non-HMP enrollees has also increased during the same period.

During the COVID-19 pandemic, this increase was attributable to both the economic impact of the pandemic and federally incentivized pause in annual eligibility determinations. Michigan is currently refining plans for re-initiating the determinations in April 2023 as required by the Consolidated Appropriations Act, 2023. While it is expected that total enrollment will decrease as annual redeterminations are completed, it is not clear by how much.

	Feb 2022	Apr 2022	June 2022	Aug 2022	Oct 2022	Jan 2023	Feb 2023
All Medicaid Beneficiaries Enrolled	2,194,871	2,218,585	2,236,945	2,251,780	2,265,187	2,281,381	2,281,669
• Total HMP Enrollees	765,926	776,376	782,396	786,388	791,115	799,826	800,242
• Total CSHCS/ Medicaid Enrollees	26,567	26,775	27,299	27,733	27,628	27,730	28,021
• Total Medicare/ Medicaid Enrollees (Duals)	47,148	47,178	47,229	47,494	47,548	45,258	44,827
• Total MIChild Enrollees	35,592	35,967	35,971	35,961	35,922	36,010	35,819

The number of beneficiaries identified as mandatory managed care enrollees but not yet enrolled in a Medicaid HMO has varied dramatically over the last few years, from a low of 45,305 in July 2018 to a high of 149,746 in May 2020. **In February 2023 the number of mandatory but not yet enrolled beneficiaries was 57,467 down from 73,202 in January 2023.**

As the enrollment reports for February ([pdf](#), [xls](#)) reflect, every county in the state is served by at least one Medicaid HMO. Auto-assignment of beneficiaries into the HMOs is available in every county. In addition to the HMOs with smaller service areas, there are three HMOs – McLaren Health Plan, Meridian Health Plan of Michigan, and Molina Healthcare of Michigan – authorized to serve all counties in the Lower Peninsula and a fourth – UnitedHealthcare Community Plan – authorized to serve all but three of the Lower Peninsula counties. Beneficiaries in all 15 counties in the Upper Peninsula are auto-assigned, through federal “Rural Exception” authority, to the one HMO serving these counties, Upper Peninsula Health Plan.

The plans with the highest total enrollment in February 2023 were Meridian Health Plan of Michigan with about 24 percent of the total, Molina Healthcare of Michigan with about 18 percent, Blue Cross Complete of Michigan with about 15 percent of the total number of enrollees, and UnitedHealthcare Community Plan with about 13 percent.

Healthy Michigan Plan (HMP)

The **total count of HMP enrollees in the Medicaid HMOs in February 2023 was 800,242 an increase of 416** over the count for January 2023. All Medicaid HMOs have HMP beneficiaries enrolled, although the numbers vary across plans. The plans with the highest HMP enrollment in February 2023 were Meridian Health Plan of Michigan with about 23 percent of the total, Blue Cross Complete with about 18 percent, and Molina Healthcare of Michigan with about 15 percent of the total number of enrollees.

CSHCS/Medicaid

The MDHHS requires children (and a few adults) receiving services from both the Children’s Special Health Care Services (CSHCS) program and the Medicaid program to enroll in Medicaid HMOs. There were **28,021 joint CSHCS/Medicaid beneficiaries enrolled in the Medicaid HMOs in February 2023**, an increase of **291** since January 2023. All Medicaid HMOs have CSHCS/Medicaid enrollees, although the numbers vary across plans. The plans with the highest enrollment in February 2023 were Molina Healthcare of Michigan with about 20 percent, Meridian Health Plan of Michigan with about 18 percent and Blue Cross Complete with about 17 percent of the total number of enrollees.

MiChild

There were **35,819 MiChild beneficiaries enrolled in the Medicaid HMOs in February 2023**, a decrease of 191 since January 2023. All Medicaid HMOs have MiChild beneficiaries enrolled, although the numbers vary dramatically across plans. The plans with the highest enrollment in February were Meridian Health Plan of Michigan with about 25 percent of the total, and Priority and Molina Healthcare of Michigan both with about 15 percent of the total number of enrollees.

Medicare/Medicaid

Aside from Michigan’s Medicare/Medicaid financial alignment demonstration, MI Health Link, there were an additional **44,827 Medicaid beneficiaries dually eligible for Medicare (duals) enrolled in February 2023 in Medicaid HMOs** for their acute care Medicaid benefits. The number of enrolled duals **decreased by 431** between January 2023 and February 2023. All Medicaid HMOs have duals enrolled, although the numbers vary significantly across plans. The plans with the highest enrollment in February 2023 were Meridian Health Plan of Michigan with about 25 percent of the total, Molina Healthcare of Michigan with about 21 percent, and UnitedHealthCare Community Plan with about 18 percent of the total number of enrollees.

MI HEALTH LINK

In previous editions of *The Michigan Update* we have written about Michigan’s implementation of an integrated healthcare delivery system demonstration for adults dually eligible for Medicare and Medicaid (duals). The demonstration, called MI Health Link, operates in four regions of the state. The entire Upper Peninsula is one region; eight counties in the southwest corner of the state (Barry, Berrien, Branch, Calhoun, Cass, Kalamazoo, St. Joseph, and Van Buren) form another region; and Macomb County and Wayne County are two single-county regions. Medicaid and Medicare physical healthcare services (including long-term services and supports) are provided by HMOs that have contracts as Integrated Care Organizations (ICOs) to serve the duals.

The number of MI Health Link enrollees continues to fluctuate, with increases in some months and decreases in others. The Michigan Department of Health and Human Services (MDHHS) reports that **in February 2023, the MI Health Link enrollment total was 42,066** a decrease of **435** enrollees since January 2023.

The tables below illustrate MI Health Link enrollment by month from 2021 to the most current data. Enrollment fluctuations are clear. The lowest count on the tables was in January 2021 when there were 39,250 enrollees; November 2022 saw the highest enrollment with 45,188 enrollees.

Jan. 2021	Feb. 2021	March 2021	April 2021	May 2021	June 2021
39,250	39,374	39,150	39,934	39,958	40,015

There are seven ICOs serving one or more of the demonstration regions. The table below provides enrollment information by region for each ICO for **February 2023**

MI Health Link Enrollment	Upper Peninsula Region	SW MI Region	Macomb Region	Wayne Region	Total
Aetna Better Health of MI		3,292	1,472	4,090	8,854
AmeriHealth Michigan			764	2,306	3,070
HAP Empowered Health Plan			1,125	3,507	4,632

Michigan Complete Health, Inc.			1		1
Molina Healthcare of MI			2,274	10,017	12,291
Upper Peninsula Health Plan	4,630				4,630
Total	4,630	8,231	6,496	22,709	42,066

The plans with the highest enrollment in February 2023 were Molina Healthcare of Michigan with about 29 percent of the total, Aetna Better Health of Michigan with about 21 percent, and Meridian Health Plan of Michigan with about 20 percent of the total number of enrollees.

During February 2023, about 95 percent of the MI Health Link enrollees were living in a community setting, and the remaining 5 percent of enrollees resided in a facility. About 6 percent of the total enrollees living in a community setting were receiving home and community-based long-term services and supports through the MI Health Link program waiver; however, a significant number of the other enrollees living in a community setting received in-home services and supports from the ICOs through the Medicaid State Plan personal care benefit called Home Help.

Most MI Health Link enrollees are passively enrolled; they are auto assigned to a health plan based on their eligibility but can opt out of the demonstration at any time. Beneficiaries may also voluntarily enroll in the demonstration; and during February 2023, about 26 percent of the demonstration’s participants were voluntarily enrolled.

MDHHS also reports 56,357 duals eligible for participation in the demonstration have chosen to opt out. These individuals receive their Medicaid benefits on a fee-for-service basis but retain the option to voluntarily enroll, or re-enroll, in the demonstration at any time.

More than half of the MI Health Link enrollees are individuals under the age of 65. These younger individuals qualified for Medicare and Medicaid based on a disability.

MICHIGAN MEDICARE ADVANTAGE PLANS

There are multiple types of Medicare Advantage Special Needs Plans (SNPs). Chronic Condition SNPs (C-SNPs) serve Medicare beneficiaries with specific chronic medical conditions. Institutional SNPs (I-SNPs) focus on Medicare beneficiaries residing in institutions. Plans that focus on Medicare beneficiaries dually eligible for Medicaid are called Dual Eligible SNPs (D-SNPs). All three types of plans provide Medicare benefits, and all are available in Michigan.

As of February 2023, there are a total of 116,659 Michigan enrollees in various Medicare Advantage Special Needs Plans (SNPs). This is an increase from last year where there was a total of 87,139 Michigan SNP enrollees in February 2022. Unlike other Medicare Advantage plans, eligible individuals can enroll in a SNP year-round.

Dual Eligible Special Needs Plan (D-SNP)

D-SNPs continue to be the most popular type of SNP in Michigan. As of February 2023, there are 18 D-SNPs in the Michigan market with a total of 114,735 enrollees. This is a jump from last year's total of 85,470 D-SNP enrollees. While most of these coordination-only D-SNP plans continue to be HMOs, there are three PPO plans offered in the Michigan market this year. Michigan currently does not have fully integrated dual eligible SNPs (FIDEs) or highly integrated dual SNPs (HIDEs).

Not all duals enrolled in Michigan's D-SNPs are eligible to receive full Medicaid benefits. Some enrollees only receive assistance from the Medicaid program with their Medicare cost-sharing and/or monthly premiums.

Several of the Medicaid HMOs in Michigan are federally contracted as D-SNPs and some of their parent organizations are also offering D-SNPs in the state. According to federal reports, Blue Cross Complete and Upper Peninsula Health Plan continue to be the only Medicaid-contracted health plans that do not offer a D-SNP product either directly or through a parent organization.

The plans with the most enrollees are UnitedHealthcare Dual Complete (22,081) and Humana Choice (20,638). New to the Michigan D-SNP market, Zing Health's Dual Complete Plus MI plan has 43 enrollees.

Chronic Condition Special Needs Plan (C-SNP)

There are eight C-SNP plans in the Michigan market, but only three health plans have enrollees as of February 2023. This year, there has been a decrease in C-SNP enrollees compared to last year. There were a total of 1,054 C-SNP enrollees in February 2022, compared to 775 enrollees in February 2023.

Erickson Advantage Champion has the highest number of enrollees (609), but their enrollment is distributed across an 11-state service area where Erickson Senior Living facilities are located that includes Oakland County. Centene (formerly Meridian Health Plan of Michigan) did not offer a C-SNP in the Michigan market this year. Honest HMO of Michigan is a new contract offering four C-SNPs for beneficiaries with diabetes, cardiovascular disorders, chronic heart failure, and End Stage Renal Disease (ESRD). As of February, these plans did not have any enrollees.

**This total excludes the 2022 C-SNP HMO enrollment offered by Centene (formerly Meridian Health Plan of Michigan). As of December 22, that plan had 84 enrollees.*

Institutional Special Needs Plan (I-SNP)

There are three I-SNPs in Michigan with a total of 1,149 enrollees as of February 2023. This is an increase compared to the 615 enrollees in February 2022. Longevity Health Plan has the most enrollees (616) compared to Erickson Advantage Guardian (123) and Align Thrive (410).

HEALTHY MICHIGAN PLAN ENROLLMENT

The Michigan Department of Health and Human Services (MDHHS) reports enrollment counts for the Healthy Michigan Plan (HMP), its Medicaid expansion program for low-income non-elderly adults who do not meet eligibility criteria for traditional program coverage, at the beginning of each week on its [website](#). The enrollment number includes beneficiaries enrolled in health plans and beneficiaries not required to enroll in a health plan. Enrollment stood at **1,068,635 as of March 1, 2023. This is an increase of 4,174 since January 30, 2023. The enrollment count for March 1, 2023, is the highest ever for the program.**

MEDICAID POLICIES

The Michigan Department of Health and Human Services (MDHHS) issued several publications that are available for review on the department's [website](#).

The [website](#) shows six new final policies issued this year
