## MEDICAID MANAGED CARE ENROLLMENT ACTIVITY

As of July 1, 2022, there were **2,239,913 Medicaid beneficiaries, including 782,520 Healthy Michigan Plan (HMP) beneficiaries**, enrolled in the nine Michigan Medicaid Health Plans (HMOs). As the table below shows, this is an overall **increase of 2,968** since June 1, 2022. The number of HMP beneficiaries enrolled in HMOs increased by 124 and the number of non-HMP beneficiaries increased by 2,844. As the table below illustrates, while **managed care enrollment growth has slowed, it still continues to grow and is 83,917 higher in July 2022 than in July 2021.**

The count of HMP beneficiaries enrolled in the nine Michigan Medicaid Health Plans (HMOs) in July 2022 is **27,888** more than in July 2021. The count of non-HMP enrollees has also increased during the same period.

Some of this growth can surely be attributed to the COVID-19 pandemic and the loss of income and health insurance by many in Michigan’s population, but a contributing factor as well was the requirement that the Michigan Department of Health and Human Services (MDHHS) to temporarily discontinue annual eligibility redeterminations and case closures.

• Total HMP Enrollees	754,632	765,889	759,887	765,121	773,568	782,396	782,520
• Total CSHCS/Medicaid Enrollees	26,435	26,135	26,134	26,296	26,613	27,299	27,387
• Total Medicare/Medicaid Enrollees (Duals)	47,574	48,240	48,508	47,056	46,882	47,229	47,433
• Total MICHild Enrollees	36,622	36,772	36,211	35,935	35,921	35,971	35,897

The number of beneficiaries identified as mandatory managed care enrollees but not yet enrolled in a Medicaid HMO has varied dramatically over the last few years, from a low of 45,305 in July 2018 to a high of 149,746 in May 2020. **In July 2022 the number of mandatory but not yet enrolled beneficiaries was 49,443 up** from 44,150 in June 2022.

As the enrollment reports for July ([pdf](#), [xls](#)) reflect, every county in the state is served by at least one Medicaid HMO. Auto-assignment of beneficiaries into the HMOs is available in every county. In addition to the HMOs with smaller service areas, there are three HMOs – McLaren Health Plan, Meridian Health Plan of Michigan, and Molina Healthcare of Michigan – authorized to serve all counties in the Lower Peninsula and a fourth – UnitedHealthcare Community Plan – authorized to serve all but three of the Lower Peninsula counties. Beneficiaries in all 15 counties in the Upper Peninsula are auto-assigned,

through federal “Rural Exception” authority, to the one HMO serving these counties, Upper Peninsula Health Plan.

The plans with the highest total enrollment in July 2022 were Meridian Health Plan of Michigan with about 25 percent of the total, Molina Healthcare of Michigan with about 18 percent, Blue Cross Complete of Michigan with about 15 percent of the total number of enrollees, and UnitedHealthcare Community Plan with about 13 percent.

*Healthy Michigan Plan (HMP)*

The **total count of HMP enrollees in the Medicaid HMOs in July 2022 was 782,520 an increase of 124** over the count for June 2022. All Medicaid HMOs have HMP beneficiaries enrolled, although the numbers vary across plans. The plans with the highest HMP enrollment in July 2022 were Meridian Health Plan of Michigan with about 23 percent of the total, Blue Cross Complete with about 18 percent, and Molina Healthcare of Michigan with about 15 percent of the total number of enrollees.

*CSHCS/Medicaid*

The MDHHS requires children (and a few adults) receiving services from both the Children’s Special Health Care Services (CSHCS) program and the Medicaid program to enroll in Medicaid HMOs. There were **27,387 joint CSHCS/Medicaid beneficiaries enrolled in the Medicaid HMOs in July 2022**, an increase of **88** since June 2022. All Medicaid HMOs have CSHCS/Medicaid enrollees, although the numbers vary across plans. The plans with the highest enrollment in July 2022 were Meridian Health Plan of Michigan and Molina Healthcare of Michigan, both with about with about 20 percent, and Blue Cross Complete with about 16 percent of the total number of enrollees.

*MiChild*

There were **35,897 MiChild beneficiaries enrolled in the Medicaid HMOs in July 2022**, a decrease of 74 since June 2022. All Medicaid HMOs have MiChild beneficiaries enrolled, although the numbers vary dramatically across plans. The plans with the highest enrollment in July were Meridian Health Plan of Michigan with about 26 percent of the total, and Molina Healthcare of Michigan and Priority both with about 15 percent of the total number of enrollees.

*Medicare/Medicaid*

Aside from Michigan’s Medicare/Medicaid financial alignment demonstration, MI Health Link, there were an additional **47,433 Medicaid beneficiaries dually eligible for Medicare (duals) enrolled in July 2022 in Medicaid HMOs** for their acute care Medicaid benefits. The number of enrolled duals **increased by 204** between June 2022 and July 2022. All Medicaid HMOs have duals enrolled, although the numbers vary significantly across plans. The plans with the highest enrollment in July 2022 were Meridian Health Plan

of Michigan with about 27 percent of the total, Molina Healthcare of Michigan with about 21 percent, and UnitedHealthCare Community Plan with about 17 percent of the total number of enrollees.

## MI HEALTH LINK

In previous editions of *The Michigan Update* we have written about Michigan’s implementation of an integrated healthcare delivery system demonstration for adults dually eligible for Medicare and Medicaid (duals). The demonstration, called MI Health Link, operates in four regions of the state. The entire Upper Peninsula is one region; eight counties in the southwest corner of the state (Barry, Berrien, Branch, Calhoun, Cass, Kalamazoo, St. Joseph, and Van Buren) form another region; and Macomb County and Wayne County are two single-county regions. Medicaid and Medicare physical healthcare services (including long-term services and supports) are provided by HMOs that have contracts as Integrated Care Organizations (ICOs) to serve the duals.

The number of MI Health Link enrollees continues to fluctuate, with increases in some months and decreases in others. The Michigan Department of Health and Human Services (MDHHS) reports that **in July 2022, the MI Health Link enrollment total was 40,306**, a decrease of **44** enrollees since June 2022.

The tables below illustrate MI Health Link enrollment by month from 2020 to the most current data. Enrollment fluctuations are clear although this is the third consecutive month with declining enrollment. The lowest count on the tables was in January 2020 when there were 36,647 enrollees; and the highest enrollment was in September 2021 with 41,941 enrollees.

There are seven ICOs serving one or more of the demonstration regions. The table below provides enrollment information by region for each ICO for **July 2022**

MI Health Link Enrollment	Upper Peninsula Region	SW MI Region	Macomb Region	Wayne Region	Total
Aetna Better Health of MI		3,092	1,036	3,688	<b>7,816</b>
AmeriHealth Michigan			676	2,246	<b>2,922</b>
HAP Empowered Health Plan			1,056	3,400	<b>4,456</b>
Meridian Health Plan of MI		4,941	1,004	2,562	<b>8,507</b>
MI Complete Health			2,194	9,998	<b>12,192</b>
Molina Healthcare of MI	4,413				<b>4,413</b>
Upper Peninsula Health Plan	4,413	8,033	5,966	21,894	<b>40,306</b>
<b>Total</b>		<b>3,092</b>	<b>1,036</b>	<b>3,688</b>	<b>7,816</b>

The plans with the highest enrollment in July 2022 were Molina Healthcare of Michigan with about 30 percent of the total, Meridian Health Plan of Michigan with about 21 percent, and Aetna Better Health of Michigan with about 19 percent, and of the total number of enrollees.

During July 2022, about 96 percent of the MI Health Link enrollees were living in a community setting, and the remaining 4 percent of enrollees resided in a facility. About 7 percent of the total enrollees living in a community setting were receiving home and community-based long-term services and supports through the MI Health Link program waiver; however, a significant number of the other enrollees living in a community setting received in-home services and supports from the ICOs through the Medicaid State Plan personal care benefit called Home Help.

Most MI Health Link enrollees are passively enrolled; they are auto assigned to a health plan based on their eligibility but are able to opt out of the demonstration at any time. Beneficiaries may also voluntarily enroll in the demonstration; and during July 2022, about 27 percent of the demonstration’s participants were voluntarily enrolled.

MDHHS also reports that 53,102 duals eligible for participation in the demonstration have chosen to opt out. These individuals receive their Medicaid benefits on a fee-for-service basis but retain the option to voluntarily enroll, or re-enroll, in the demonstration at any time.

More than half of the MI Health Link enrollees are individuals under the age of 65. These younger individuals qualified for Medicare and Medicaid based on a disability.

## MICHIGAN MEDICARE ADVANTAGE PLANS

There are multiple types of Medicare Advantage Special Needs Plans (SNPs). Some plans focus on Medicare beneficiaries with certain chronic medical conditions; these are called C-SNPs. Other plans focus on Medicare beneficiaries residing in institutions; these are I-SNPs. Plans that focus on Medicare beneficiaries dually eligible for Medicaid (duals) are called D-SNPs. All three types of plans provide Medicare benefits, and all are available in Michigan.

Meridian Health Plan of Michigan continues to offer a C-SNP focused on Medicare beneficiaries with diabetes and had 81 Medicare enrollees in July 2022. Align Senior Care Michigan is offering a C-SNP focused on beneficiaries with dementia and had 18 enrollees in July 2022. Zing Health of Michigan is offering a C-SNP focused on beneficiaries with Cardiovascular Disorders, Chronic Heart Failure, and/or Diabetes and had 73 enrollees in July 2022. Align is also offering an I-SNP and had 286 enrollees in July 2022. Longevity Health Plan of Michigan is offering an I-SNP and had 519 enrollees in July 2022.

Several of the Medicaid HMOs in Michigan are also federally contracted as D-SNPs and some of their parent organizations are also offering D-SNPs in the state. According to federal reports, Blue Cross Complete and Upper Peninsula Health Plan are the only Medicaid-contracted health plans that do not offer a D-SNP product either directly or through a parent organization. Collectively, **the Medicaid health plans, and their parent organizations had a combined enrollment of 64,900 duals for whom they provided Medicare services in July 2022.**

About 33 percent of the duals enrolled in a Michigan D-SNP (21,053 individuals) in July 2022 were enrolled with UnitedHealthcare Community Plan; about 23 percent (14,647 individuals) were enrolled with Molina; about 22 percent (14,024 individuals) were enrolled in products through Meridian or its parent company, Centene; about 14 percent (8,970 individuals) were enrolled with Priority Health Choice; 8 percent (5,400 individuals) were enrolled with Aetna Health Plan of Michigan (the parent organization of Medicaid-contracted Aetna Better Health of Michigan); and 636 individuals (1 percent of the total) were enrolled with Health Alliance Plan (HAP) of Michigan, the parent organization of Medicaid-contracted HAP Empowered Health Plan. McLaren Health Plan also has an approved D-SNP for 2022 and has 170 enrollees in July 2022. None of these duals are participating in the MI Health Link demonstration, but some may also be enrolled in the affiliated Medicaid HMOs to receive their Medicaid services.

In addition to these health plans, Humana Medical/Dental Plan and Humana Medical Plan of Michigan, as well as Reliance HMO, Inc. are also offering D-SNPs in Michigan. Humana's D-SNP products have a total enrollment of 27,803 enrollees in July 2022 and Reliance is serving 217 individuals. These enrollment totals are not counted in the aforementioned statistics because they are not Medicaid-contracted health plans.

Not all duals enrolled in the D-SNPs are eligible to receive full Medicaid benefits. Some only receive assistance from the Medicaid program with their Medicare coinsurance and deductible payments and/or monthly Medicare premiums.

## HEALTHY MICHIGAN PLAN ENROLLMENT

The Michigan Department of Health and Human Services (MDHHS) reports enrollment counts for the Healthy Michigan Plan (HMP), its Medicaid expansion program for low-income non-elderly adults who do not meet eligibility criteria for traditional program coverage, at the beginning of each week on its [website](#). The enrollment number includes beneficiaries enrolled in health plans and beneficiaries not required to enroll in a health plan. Enrollment stood at **1,014,075 as of July 25, 2022. This is an increase of 6,037 since June 27, 2022. The enrollment count for July 25, 2022 is the highest ever for the program.**

## MEDICAID POLICIES

The Michigan Department of Health and Human Services (MDHHS) issued several publications in December that are available for review on the department's [website](#).

The [website](#) shows two final policies issued since our last newsletter:

- HASA 22-21; issued July 1, 2022, Neonatal Intensive Care Unit (NICU) Return Transfers
- MMP 22-23, issued July 27, 2022, Current Procedural Terminology (CPT) and Healthcare Common Procedure Coding System (HCPCS) Code Updates

The [website](#) shows four proposed policies for which the public comment period is still open.

- 2153-BH§1915(i) State Plan Home and Community-Based Services
- 2214-OHH; Opioid Health Home (OHH) Expansion
- 2140-Eligibility; Spousal Impoverishment Rules, Patient Pay Amounts; and Estate Recovery
- 2217-Therapy; Co-Treatment Therapy

MDHHS did not release any L-letters in July 2022.
