MEDICAID MANAGED CARE ENROLLMENT ACTIVITY

As of November 1, 2023, there were **2,092,146 Medicaid beneficiaries, including 718,242 Healthy Michigan Plan (HMP) beneficiaries**, enrolled in the nine Michigan Medicaid Health Plans (HMOs). As the table below shows, this is an overall **decrease of 55,484** since October 1, 2023. The number of HMP beneficiaries enrolled in HMOs **decreased by 26,468** and the number of non-HMP beneficiaries **decreased by 29,016**.

The total number of Medicaid beneficiaries, including Healthy Michigan Plan (HMP) beneficiaries enrolled in the nine Michigan Medicaid Plans in November 2023 is 182,576 less than in November 2022. The count of HMP beneficiaries enrolled in the nine Michigan Medicaid Health Plans (HMOs) in November 2023 is 76,215 less than November 2022.

The number of beneficiaries identified as mandatory managed care enrollees but not yet enrolled in a Medicaid HMO has varied dramatically over the last few years, from a previous low of 45,305 in July 2018 to a high of 149,746 in May 2020. **In November 2023 the number of mandatory but not yet enrolled beneficiaries was 49,375 – up slightly from 49,249** in October 2023.

As the enrollment reports for November ([pdf](#), [xls](#)) reflect, every county in the state is served by at least one Medicaid HMO. Auto-assignment of beneficiaries into the HMOs is available in every county. In addition to the HMOs with smaller service areas, there are three HMOs – McLaren Health Plan, Meridian Health Plan of Michigan, and Molina Healthcare of Michigan – authorized to serve all counties in the Lower Peninsula and a fourth – UnitedHealthcare Community Plan – authorized to serve all but three of the Lower Peninsula counties. Beneficiaries in all 15 counties in the Upper Peninsula are auto-assigned, through federal “Rural Exception” authority, to the one HMO serving these counties, Upper Peninsula Health Plan.

The plans with the highest total enrollment in November 2023 were Meridian Health Plan of Michigan with about 23 percent of the total (483,675 enrollees), Molina Healthcare of Michigan with about 17

percent (365,391 enrollees), Blue Cross Complete of Michigan with about 16 percent of the total number of enrollees (333,750), and UnitedHealthcare Community Plan with about 14 percent (382,183 enrollees).

Healthy Michigan Plan (HMP)

The **total count of HMP enrollees in the Medicaid HMOs declined in November 2023 for the fourth month in a row, reflecting the impacts of restarting redeterminations, after increases for the first seven months of the year. November's count was 718,242 which is a decrease of 26,468** from October 2023. All Medicaid HMOs have HMP beneficiaries enrolled, although the numbers vary across plans. The plans with the highest HMP enrollment in November 2023 were Meridian Health Plan of Michigan with about 21 percent of the total, Blue Cross Complete with about 19 percent, and Molina Healthcare of Michigan with about 15 percent of the total number of enrollees.

CSHCS/Medicaid

MDHHS requires children (and a few adults) receiving services from both the Children's Special Health Care Services (CSHCS) program and the Medicaid program to enroll in Medicaid HMOs. There were **27,505 joint CSHCS/Medicaid beneficiaries enrolled in the Medicaid HMOs in November 2023**, a decrease of **352** since October 2023. All Medicaid HMOs have CSHCS/Medicaid enrollees, although the numbers vary across plans. The plans with the highest enrollment in November 2023 were Molina Healthcare of Michigan with about 21 percent, Meridian Health Plan of Michigan, Blue Cross Complete, and Priority Health Choice each had about 17 percent of the total number of enrollees.

MiChild

There were **41,831 MiChild beneficiaries enrolled in the Medicaid HMOs in November 2023**, an increase of 2,485 since October 2023. All Medicaid HMOs have MiChild beneficiaries enrolled, although the numbers vary dramatically across plans. The plans with the highest enrollment in November were Meridian Health Plan of Michigan with about 25 percent of the total, Molina Healthcare of Michigan with about 16 percent, and Priority Health with about 15 percent of the total number of enrollees.

Medicare/Medicaid

Aside from Michigan's Medicare/Medicaid financial alignment demonstration, MI Health Link, there were an additional **39,828 Medicaid beneficiaries dually eligible for Medicare (duals) enrolled in November 2023 in Medicaid HMOs** for their Medicaid benefits. The number of enrolled duals **decreased by 466** between October 2023 and November 2023. All Medicaid HMOs have duals enrolled, although the numbers vary significantly across plans. Meridian Health Plan of Michigan had the highest enrollment in November 2023 with about 22 percent of the total. Molina Healthcare of Michigan and UnitedHealthCare Community Plan both had about 20 percent of the total number of enrollees.

MI HEALTH LINK

In previous editions of *The Michigan Update* we have written about Michigan’s implementation of an integrated healthcare delivery system demonstration for adults dually eligible for Medicare and Medicaid (duals). The demonstration, called MI Health Link, operates in four regions of the state. The entire Upper Peninsula is one region; eight counties in the southwest corner of the state (Barry, Berrien, Branch, Calhoun, Cass, Kalamazoo, St. Joseph, and Van Buren) form another region; and Macomb County and Wayne County are two single-county regions. Medicaid and Medicare physical healthcare services (including long-term services and supports) are provided by HMOs that have contracts as Integrated Care Organizations (ICOs) to serve the duals.

The number of MI Health Link enrollees continues to fluctuate, with increases in some months and decreases in others. The Michigan Department of Health and Human Services (MDHHS) reports that **in November 2023, the MI Health Link enrollment total was 37,645** a decrease of **1,151 enrollees** since October 2023.

The tables below illustrate MI Health Link enrollment by month from 2021 to the most current data. Enrollment fluctuations are clear. The lowest count on the tables was in January 2021 when there were 39,250 enrollees; November 2022 saw the highest enrollment with 45,188 enrollees.

There are six ICOs serving one or more of the demonstration regions. The table below provides enrollment information by region for each ICO for **November 2023**.

MI Health Link Enrollment	Upper Peninsula Region	SW MI Region	Macomb Region	Wayne Region	Total
Aetna Better Health of MI		2,942	1,393	3,724	8,059
AmeriHealth Michigan			638	2,113	2,751
HAP CareSource			1,014	3,147	4,161
Meridian Health Plan of MI		3,941	874	2,529	7,344
Molina Healthcare of MI			2,041	8,860	10,901
Upper Peninsula Health Plan	4,429				4,429
Total	4,429	6,883	5,960	20,373	37,645

The plans with the highest enrollment in November 2023 were Molina Healthcare of Michigan with about 29 percent of the total, Aetna Better Health of Michigan with about 21 percent, and Meridian Health Plan of Michigan with about 20 percent of the total number of enrollees.

During November 2023, about 94 percent of the MI Health Link enrollees were living in a community setting, and the remaining 6 percent of enrollees resided in a facility. About 7 percent of the total enrollees living in a community setting were receiving home and community-based long-term services and supports through the MI Health Link HCBS program waiver; however, a significant number of the other enrollees living in a community setting received in-home services and supports from the ICOs through the Medicaid State Plan personal care benefit called Home Help.

Most MI Health Link enrollees are passively enrolled; they are auto assigned to a health plan based on their eligibility but can opt out of the demonstration at any time. Beneficiaries may also voluntarily enroll in the demonstration; and during November 2023, about 27 percent of the demonstration’s participants were voluntarily enrolled.

MDHHS also reports 61,881 duals eligible for participation in the demonstration have chosen to opt out. These individuals receive their Medicaid benefits on a fee-for-service basis but retain the option to voluntarily enroll, or re-enroll, in the demonstration at any time.

More than half of the MI Health Link enrollees are individuals under the age of 65. These younger individuals qualified for Medicare and Medicaid based on a disability.

MICHIGAN MEDICARE ADVANTAGE PLANS

There are multiple types of Medicare Advantage Special Needs Plans (SNPs). Chronic Condition SNPs (C-SNPs) serve Medicare beneficiaries with specific chronic medical conditions. Institutional SNPs (I-SNPs) focus on Medicare beneficiaries residing in institutions. Plans that focus on Medicare beneficiaries dually eligible for Medicaid are called Dual Eligible SNPs (D-SNPs). All three types of plans provide Medicare benefits, and all are available in Michigan.

As of November 2023, there are a total of 142,387 Michigan enrollees in various Medicare Advantage Special Needs Plans (SNPs). This is an increase of 2,326 over October 2023. Unlike other Medicare Advantage plans, eligible individuals can enroll in a SNP year-round.

Dual Eligible Special Needs Plan (D-SNP)

D-SNPs continue to be the most popular type of SNP in Michigan. As of November 2023, there are 18 D-SNPs in the Michigan market with a total of 140,251 enrollees. While most of these coordination-only D-SNP plans continue to be HMOs, there are three PPO plans offered in the Michigan market this year. Michigan currently does not have fully integrated dual eligible SNPs (FIDEs) or highly integrated dual SNPs (HIDEs).

Not all duals enrolled in Michigan's D-SNPs are eligible to receive full Medicaid benefits. Some enrollees only receive assistance from the Medicaid program with their Medicare cost-sharing and/or monthly premiums.

Several of the Medicaid HMOs in Michigan are federally contracted as D-SNPs and some of their parent organizations are also offering D-SNPs in the state. According to federal reports, Blue Cross Complete and Upper Peninsula Health Plan continue to be the only Medicaid-contracted health plans that do not offer a D-SNP product either directly or through a parent organization.

The plans with the most enrollees are United Healthcare Dual Complete (31,461) and Humana Choice (25,140). New to the Michigan D-SNP market, Zing Health's Dual Complete Plus MI plan has 41 enrollees.

Chronic Condition Special Needs Plan (C-SNP)

There are eight C-SNP plans in the Michigan market, but only four health plans have enrollees as of November 2023.

Erickson Advantage Champion has the highest number of enrollees (393), but their enrollment is distributed across a 10-state service area where Erickson Senior Living facilities are located that includes Oakland County. Zing Essential Wellness Diabetes and Heart MI had 3010 enrollees in November 2023.
