MEDICAID MANAGED CARE ENROLLMENT ACTIVITY

As of February 1, 2021, there were **2,084,595 Medicaid beneficiaries, including 718,103 Healthy Michigan Plan (HMP) beneficiaries**, enrolled in the 10 Michigan Medicaid Health Plans (HMOs). As the table below shows, this is an overall **increase of 18,258** since January 1, 2021. The number of HMP beneficiaries enrolled in HMOs increased by 14,282 and the number of non-HMP beneficiaries increased by 3,976.

As the table below illustrates, **managed care enrollment has grown significantly** over the last year and is about **331,000 higher in February 2021 than in February 2020**.

More than half of the growth can be seen in the Healthy Michigan Plan (HMP) enrollment figures; the count of HMP beneficiaries enrolled in the 10 Michigan Medicaid Health Plans (HMOs) in February 2021 is about 183,000 higher than in February 2020. The count of non-HMP enrollees has also increased during the same period.

Some of this growth can surely be attributed to the COVID-19 pandemic and the loss of income and health insurance by many in Michigan’s population, but a contributing factor as well was the decision in April 2020 by the Michigan Department of Health and Human Services (MDHHS) to temporarily discontinue annual eligibility redeterminations and case closures.

	Feb 2020	Apr 2020	June 2020	Aug 2020	Nov 2020	Jan 2021	Feb 2021
All Medicaid Beneficiaries Enrolled	1,753,850	1,769,106	1,880,759	1,972,839	2,030,019	2,066,337	2,084,595
• Total HMP Enrollees	535,525	538,346	596,382	651,134	680,653	703,821	718,103
• Total CSHCS/ Medicaid Enrollees	23,929	24,213	25,750	24,924	26,345	26,645	26,851
• Total Medicare/ Medicaid Enrollees (Duals)	39,199	38,934	40,724	41,446	45,021	45,122	45,642
• Total MICHild Enrollees	38,716	38,549	35,351	35,795	35,785	35,713	35,052

The number of beneficiaries identified as mandatory managed care enrollees but not yet enrolled in a Medicaid HMO has varied dramatically over the last few years, from a low of 45,305 in July 2018 to a high of 149,746 in May 2020. In February 2021, the number of mandatory but not yet enrolled beneficiaries was 61,277, down from 71,624 in January 2021.

As the enrollment reports for February ([pdf](#), [xls](#)) reflect, every county in the state is served by at least one Medicaid HMO. Auto-assignment of beneficiaries into the HMOs is available in every county. In addition to the HMOs with smaller service areas, there are three HMOs – McLaren Health Plan, Meridian Health Plan of Michigan, and Molina Healthcare of Michigan – authorized to serve all counties in the Lower Peninsula and a fourth – UnitedHealthcare Community Plan – authorized to serve all but three of the Lower Peninsula counties. Beneficiaries in all 15 counties in the Upper Peninsula are auto-assigned, through federal “Rural Exception” authority, to the one HMO serving these counties, Upper Peninsula Health Plan.

The plans with the highest total enrollment in February 2021 were Meridian Health Plan of Michigan with about 26 percent of the total, Molina Healthcare of Michigan with about 18 percent, and Blue Cross Complete of Michigan with about 14 percent of the total number of enrollees.

Healthy Michigan Plan (HMP)

The **total count of HMP enrollees in the Medicaid HMOs in February 2021 was 718,103, an increase of 14,282** over the count for January 2021. All Medicaid HMOs have HMP beneficiaries enrolled, although the numbers vary across plans. The plans with the highest HMP enrollment in February 2021 were Meridian Health Plan of Michigan with about 25 percent of the total, Blue Cross Complete with almost 18 percent, and Molina Healthcare of Michigan with about 15 percent of the total number of enrollees.

CSHCS/Medicaid

The MDHHS requires children (and a few adults) receiving services from both the Children’s Special Health Care Services (CSHCS) program and the Medicaid program to enroll in Medicaid HMOs. There were **26,851 joint CSHCS/Medicaid beneficiaries enrolled in the Medicaid HMOs in February 2021, an increase of 206** since January 2021. All Medicaid HMOs have CSHCS/Medicaid enrollees, although the numbers vary across plans. The plans with the highest enrollment in February 2021 were Meridian Health Plan of Michigan with about 23 percent of the total, Molina Healthcare of Michigan with about 20 percent, and Blue Cross Complete with about 15 percent of the total number of enrollees.

MiChild

There were **35,052 MiChild beneficiaries enrolled in the Medicaid HMOs in February 2021**, a decrease of 661 since January 2021. All Medicaid HMOs have MiChild beneficiaries enrolled, although the numbers vary dramatically across plans. The plans with the highest enrollment in February were Meridian Health Plan of Michigan with about 28 percent of the total, Molina Healthcare of Michigan with about 15 percent, and Blue Cross Complete with about 13 percent of the total number of enrollees.

Medicare/Medicaid

Aside from Michigan’s Medicare/Medicaid financial alignment demonstration, MI Health Link, there were an additional **45,642 Medicaid beneficiaries dually eligible for Medicare (duals) enrolled in February 2021 in Medicaid HMOs** for their acute care Medicaid benefits. As the table above reflects, the number of enrolled duals **increased by 520** between January 2021 and February 2021. All Medicaid HMOs have duals enrolled, although the numbers vary significantly across plans. The plans with the highest enrollment in February 2021 were Meridian Health Plan of Michigan with about 29 percent of the total, Molina Healthcare of Michigan with about 22 percent, and UnitedHealthCare Community Plan with about 13 percent of the total number of enrollees.

MI HEALTH LINK

In previous editions of *The Michigan Update* we have written about Michigan’s implementation of an integrated healthcare delivery system demonstration for adults dually eligible for Medicare and Medicaid (duals). The demonstration, called MI Health Link, operates in four regions of the state. The entire Upper Peninsula is one region; eight counties in the southwest corner of the state (Barry, Berrien, Branch, Calhoun, Cass, Kalamazoo, St. Joseph, and Van Buren) form another region; and Macomb County and Wayne County are two single-county regions. Medicaid and Medicare physical healthcare services (including long-term services and supports) are provided by HMOs that have contracts as Integrated Care Organizations (ICOs) to serve the duals.

The number of MI Health Link enrollees continues to fluctuate, with increases in some months and decreases in others. The Michigan Department of Health and Human Services (MDHHS) reports that **in February 2021, the MI Health Link enrollment total was 39,374**, an increase of **124** enrollees since January 2021.

The tables below illustrate MI Health Link enrollment by month during 2019 and 2020 as well as for January and February 2021. Enrollment fluctuations are clear. The lowest enrollment count on the tables was in May 2019 when there were 33,095 enrollees; and the highest enrollment count was in November 2020 when there were 39,889 enrollees.

Jan. 2019	Feb. 2019	March 2019	April 2019	May 2019	June 2019
34,367	34,444	33,672	33,145	33,095	35,612
July 2019	August 2019	Sept. 2019	Oct. 2019	Nov. 2019	Dec. 2019
34,771	36,621	37,295	37,018	37,377	37,321

Jan. 2020	Feb. 2020	March 2020	April 2020	May 2020	June 2020
36,647	37,575	37,006	36,864	37,675	37,898
July 2020	August 2020	Sept. 2020	Oct. 2020	Nov. 2020	Dec. 2020
38,473	39,206	39,055	39,269	39,889	39,799

Jan. 2021	Feb. 2021
39,250	39,374

There are seven ICOs serving one or more of the demonstration regions. The table below provides enrollment information by region for each ICO for **February 2021**.

MI Health Link Enrollment	Upper Peninsula Region	SW MI Region	Macomb Region	Wayne Region	Total
Aetna Better Health of MI		3,130	960	3,454	7,544
AmeriHealth Michigan			697	2,327	3,024
HAP Empowered, Inc.			1,001	3,409	4,410
Meridian Health Plan of MI		5,056			5,056
MI Complete Health			714	2,243	2,957
Molina Healthcare of MI			2,152	10,009	12,161
Upper Peninsula Health Plan	4,222				4,222
Total	4,222	8,186	5,524	21,442	39,374

The plans with the highest enrollment in February 2021 were Molina Healthcare of Michigan with almost 31 percent of the total, Aetna Better Health of Michigan with about 19 percent, and Meridian Health Plan of Michigan with almost 13 percent of the total number of enrollees.

During February 2021, about 95 percent of the MI Health Link enrollees were living in a community setting, and the remaining five percent of enrollees resided in a nursing facility. About six percent of the total enrollees living in a community setting were receiving home and community-based long-term services and supports through the MI Health Link program waiver; however, a significant number of the other enrollees living in a community setting received in-home services and supports from the ICOs through the Medicaid State Plan personal care benefit called Home Help.

While all plans have enrollees receiving care in nursing facilities, Aetna Better Health of Michigan had the largest share during February 2021; 21 percent of the total enrollees residing in nursing facilities were part of Aetna. Molina Healthcare of Michigan had almost 19 percent of total enrollees residing in nursing facilities during February 2021, and Upper Peninsula Health Plan had almost 18 percent.

The majority of MI Health Link enrollees are passively enrolled; they are auto assigned to a health plan based on their eligibility but are able to opt out of the demonstration at any time. Beneficiaries may also voluntarily enroll in the demonstration; and during February 2021, more than 18 percent of the demonstration’s participants were voluntarily enrolled.

MDHHS also reports that about 61,300 duals eligible for participation in the demonstration have chosen to opt out. These individuals receive their Medicaid benefits on a fee-for-service basis but retain the option to voluntarily enroll, or re-enroll, in the demonstration at any time.

More than half of the MI Health Link enrollees are individuals under the age of 65. These younger individuals qualified for Medicare and Medicaid based on a disability.

MICHIGAN MEDICARE ADVANTAGE PLANS

There are multiple types of Medicare Advantage Special Needs Plans (SNPs). Some plans focus on Medicare beneficiaries with certain chronic medical conditions; these are called C-SNPs. Other plans focus on Medicare beneficiaries residing in institutions; these are I-SNPs. Plans that focus on Medicare beneficiaries dually eligible for Medicaid (duals) are called D-SNPs. All three types of plans provide Medicare benefits, and all are available in Michigan.

Meridian Health Plan of Michigan is offering a C-SNP and had 71 Medicare enrollees in February 2021. Align Senior Care Michigan is also offering a C-SNP and had 13 enrollees in February. Zing Health of Michigan began offering a C-SNP in January 2021 but, according to federal reports, does not yet have enrollees. Align is also offering an I-SNP and had 129 enrollees in February 2021. Longevity Health Plan of Michigan is reported to be offering an I-SNP as well but does not yet have enrollees.

Four of the 10 Medicaid HMOs in Michigan are also federally contracted as D-SNPs: Meridian Health Plan of Michigan, Molina Healthcare of Michigan, Priority Health Choice, and UnitedHealthcare Community Plan. As of February 1, 2021, these four D-SNPs had a combined enrollment of 39,552 duals for whom they provide Medicare services.

About 37 percent of the duals enrolled in a Michigan D-SNP (14,435 individuals) in February 2021 were enrolled with Molina; about 31 percent (12,343 individuals) were enrolled with Meridian; about 20 percent (7,907 individuals) were enrolled with UnitedHealthcare; and about 12 percent (4,867 individuals) were enrolled with Priority. None of these duals are participating in the MI Health Link demonstration, but some may also be enrolled in these same plans to receive their Medicaid services.

In addition to these four health plans, four additional D-SNPs serve Michigan. Humana Medical/Dental Plan and Health Alliance Plan (HAP) of Michigan were serving enrollees in 2020; and Aetna Health of Michigan, and Reliance Medicare Advantage were new to Michigan in January 2021. Humana had 15,834 enrollees in February 2021; HAP had 296 enrollees, Aetna had 688 enrollees, and Reliance had 208 enrollees. A fifth D-SNP, Longevity Health Plan of Michigan, appeared on a January federal report but with no enrollees, and this plan did not appear on the report for February 2021. These enrollment totals are not counted in the aforementioned statistics because they are not Medicaid-contracted health plans. HAP is the parent organization for HAP Empowered Health Plan and Aetna Health of Michigan is the parent organization for Aetna Better Health of Michigan, both of which are Michigan Medicaid HMOs and ICOs participating in MI Health Link.

Not all duals enrolled in the D-SNPs are eligible to receive full Medicaid benefits. Some only receive assistance from the Medicaid program with their Medicare coinsurance and deductible payments and/or monthly Medicare premiums.

For additional information, contact Cammie Cantrell, at 517-482-9236.

HEALTHY MICHIGAN PLAN ENROLLMENT

The Michigan Department of Health and Human Services (MDHHS) reports enrollment counts for the Healthy Michigan Plan (HMP), its Medicaid expansion program for low-income non-elderly adults who do not meet eligibility criteria for traditional program coverage, at the beginning of each week on its [website](#). Enrollment stood at **885,531 as of February 22, 2021**, the last counting day of the month. **This is an increase of 11,996 since January 25, 2021. The enrollment count for February 22, 2021 is the highest ever for the program and 210,516 higher than one year ago.**

Normally, the enrollment count drops on the first counting day of each month due to case closures resulting from annual eligibility redeterminations, then grows again by the end of the month as new applications and redeterminations are processed. However, as reported in the April edition of *The Michigan Update*, MDHHS released a program bulletin on April 6, 2020 (MSA 20-19) announcing that virtually all case closures – for both the HMP and traditional Medicaid eligibility categories – have been suspended due to the COVID-19 pandemic. This temporary suspension as well as an assumed increase in new enrollment requests over the last few months due to the number of newly unemployed individuals losing health care benefits likely explains the dramatic rise in enrollment.

For additional information, contact [Cammie Cantrell](#), at 517-482-9236.

MEDICAID POLICIES

The Michigan Department of Health and Human Services (MDHHS) has released five final and four proposed policies that merit mention. They are available for review on the department's [website](#).

The [website](#) shows three final policies issued in February and one issued in January after publication of this newsletter; one of the final policies was also simultaneously released for public comment.

- **MSA 21-03**, issued February 17, 2021: **Current Procedural Terminology (CPT) and Healthcare Common Procedure Coding System (HCPCS) Code Updates**
- **MSA 20-81**, issued February 2, 2021: **COVID-19 Response: Coverage of U.S. Food & Drug Administration (FDA) Emergency Use Authorization (EUA) Drugs, Devices and Biological Products for COVID-19 Prevention and Treatment**
- **MSA 20-49**, issued February 1, 2021: **COVID-19 Response: Update to Bulletin MSA 20-17 - ICD-10-CM Coding Guidance and Exemption of Co-Pays for Services to Treat COVID-19**
- **MSA 20-64**, issued January 29, 2021: **Update on Payment for Transportation Services by Portable X-ray Suppliers for Beneficiaries Residing in a Medicaid Nursing Facility**

The [website](#) also shows three proposed policies for which the public comment period is still open.

- 2069-PACE Program of All-Inclusive Care for the Elderly (PACE) Encounters and Provider Enrollment
- 2080-Injectables COVID-19 Response: Coverage of U.S. Food & Drug Administration (FDA) Emergency Use Authorization (EUA) Drugs, Devices and Biological Products for COVID-19 Prevention and Treatment
- 2047-Co-Pay COVID-19 Response: Update to Bulletin MSA 20-17 - ICD-10-CM Coding Guidance and Exemption of Co-Pays for Services to Treat COVID-19

In addition, MDHHS has released seven L-letters of potential interest since our last newsletter, which are available for review on the same [website](#).

- L 21-17, issued February 19, 2021: Notice of April 7, 2021, 7Durable Medical Equipment and Supplies Medicaid Provider Liaison Meeting
- L 21-12, issued February 17, 2021: School Based Services FY21 Bill-back
- L 21-10, issued February 16, 2021: COVID-19 Response: Submission of a Medicaid State Plan Amendment (SPA) for COVID-19 Vaccine Administration Reimbursement Rates
- L 21-11, issued February 12, 2021: Your COVID-19 Vaccine Eligibility and a Request to Assist Home Help Clients
- L 21-09, issued January 28, 2021: Changes in Access to Payment Information in the SIGMA VSS System
- L 21-08, issued January 27, 2021: Premium Pay Update Nursing Facilities
- L 21-05, issued January 27, 2021: Coverage of Doula Services

For additional information, contact [Cammie Cantrell](#), at 517-482-9236.

HMA HEALTH MANAGEMENT ASSOCIATES

Health Management Associates (HMA) is an independent, national research and consulting firm specializing in publicly funded healthcare reform, policy, and programs. We serve government, public and private providers, health systems, health plans, institutional investors, foundations, and associations. Every client matters. Every client gets our best. With over 20 offices and more than 200 multidisciplinary consultants coast to coast, our expertise, our services, and our team are always within client reach.
