

HMA

The Intersection of HIV and Substance Use: Enhancing the Care Continuum with Evidence-Based Practices

Training Series: Session 2
September 10, 2025

Copyright © 2025 Health Management Associates, Inc. All rights reserved. The content of this presentation is property of HMA and is protected by copyright. It is intended for internal use only and may not be reproduced, distributed, or otherwise communicated to others without prior permission of Health Management Associates, Inc.

UTILIZING ZOOM

- » Ensure your audio is linked to your Zoom participant ID.
 - » If you joined the audio by computer_microphone and speaker, then you're all set.
 - » If you joined the audio with a phone and did not enter your unique participant ID then enter #<your participant ID># on your phone now.

Note: Your unique participant ID can be found by clicking on the lower left corner of your Zoom screen where it says, 'Join Audio' and your Participant ID will appear.
- » Ensure you are on MUTE and your camera is ON. On the bottom left corner of your screen, you will see a red line through the microphone

- » Your participation throughout today via chat is appreciated!
 - » Locate the chat box. On the bottom middle of your screen, click on the chat icon. This will open the "Zoom Group Chat" pane on the right side of your screen. You will see messages throughout the webinar on there. When prompted by the presenters, type in your answers or questions there.

2

UTILIZING ZOOM

- » If you would like to enable closed captions during this session, please follow the steps below.
 - » On the Zoom room toolbar, tap the **Captions**  icon.
 - » You may need to tap the **More**  icon first to see the option.
 - » Ensure that the **Show Captions** toggle  is enabled.
- » If you have any issues or questions about this feature, message Gabriel Velazquez in the chat and he can assist you.

CEUS ELIGIBILITY AND DISTRIBUTION

- » This series is eligible for CEUs
 - » These activities have been approved for CEUs by the Minnesota Board of Behavioral Health and Therapy for a total of 12 hours (if fully attended) for LADCs and LPC/LPCCs
- » To qualify for CEUs, you are required to
 1. Complete the pre-training quiz
 2. Be in attendance for the entire session
 3. Complete the accompanying evaluation survey for each session attended
 4. Complete the post-training quiz
- » CEU certificates will be issued approximately 1-2 weeks AFTER the completion of the training.
- » Any follow-up questions, please contact Gabriel Velazquez: gvelazquez@healthmanagement.com

LAND ACKNOWLEDGMENT

Every community owes its existence and vitality to generations from around the world who have contributed their hopes, dreams, and energy to making the history that led to this moment. Some were brought here against their will, some were drawn to leave their distant homes in hope of a better life, and some have lived on this land for more generations than can be counted. Truth and acknowledgment are critical to building mutual respect and connection across all barriers of heritage and difference.

We begin this effort to acknowledge what is buried by honoring the truth. **We are standing on the ancestral lands of the Dakota people. We want to acknowledge the Dakota, the Ojibwe (pronounced ow-jeeb-way), the Ho Chunk, and the other nations of people who also call this place home.** We pay respects to their elders past and present.

Please take a moment to consider the treaties made by the Tribal nations that entitle non-Native people to live and work on traditional Native lands. Consider the many legacies of violence, displacement, migration, and settlement that bring us together here today. Please join us in uncovering such truths at any and all public events.*

*This is the acknowledgment given in the USDAC Honor Native Land Guide – edited to reflect this space by Shannon Geshick, MTAG, Executive Director Minnesota Indian Affairs Council

ETHICAL AND LEGAL ISSUES, FUNDING AND POLICY CONSIDERATIONS

LEARNING OBJECTIVES: ETHICAL AND LEGAL ISSUES, FUNDING AND POLICY CONSIDERATIONS

Describe the ethical considerations related to HIV disclosure and how those have changed over time

Explain privacy protection and the considerations that influence those protections related to HIV testing and disclosure

List the purpose and key components of the Ryan White Programs

Summarize at least 3 critical steps needed to end the HIV Epidemic

© 2020 Health Management Associates, Inc. All Rights Reserved.

14

PRINCIPLES OF BIOETHICS IN AMERICA

- » Autonomy / Respect for Persons – respecting decisions of autonomous persons
 - » Assumes capacity
 - » Protecting the vulnerable, those without capacity to make autonomous decisions
- » Beneficence – act in the best interest of the patient
 - » Minimize risks and balance benefits
- » Justice – fair treatment
 - » Benefits and burdens are distributed fairly in society

© 2020 Health Management Associates, Inc. All Rights Reserved.

CONSIDERING ETHICS: STRUCTURAL LENS

- » Ethical principles should NEVER be applied rigidly, mechanically, or in absolute terms
- » Sometimes the principles are in conflict
- » Our understanding of HIV/AIDS has changed dramatically and influences how policies and regulations are made and interpreted
 - » Better understanding of progression and how to mitigate
 - » Phenomenal advances in treatment and prevention

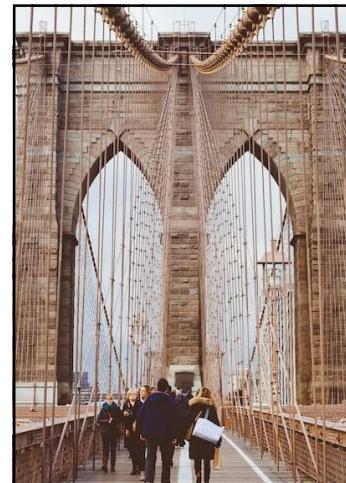

Photo Source : Brandon Day on Unsplash
© 2020 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

16

CONFIDENTIALITY: GENERAL

- » A core duty (ethical and legal) of medical practice that requires providers to keep patients' personal health information private
 - » Prohibits disclosure without consent
 - » Encourages steps to ensure security of records/info and prevention of unauthorized access
 - » Extends to all communication about patient
 - » HIPAA, 42 CFR Part 2, FERPA
- » Exceptions to release without consent
 - » Exposed Emergency Medical Services (EMS) and Correctional personnel
 - » Partner information to the PH Commissions only
 - » Public health and safety
 - » HIPAA exceptions: treatment, operations, billing/payment
 - » 42 CFR Part 2 Exceptions: emergency, child abuse, Dept. Veterans Affairs, court ordered, qualified services organizations

© 2020 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

17

TESTING, REPORTING, AND DISCLOSURE

- » In general, no specific informed consent or pre-test counseling is required in MN
- » Informed consent must be obtained, EXCEPT in cases of an EMS exposure
- » Mandatory provision of HIV education materials for clients in chemical dependency treatment programs

© 2020 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

Photo Source : CDC on Unsplash

TESTING, REPORTING, AND DISCLOSURE CONTINUED

- » Results are held confidential with exceptions:
 - » Results are treated as confidential unless the client approves release of results
 - » Name-based reporting must be provided to MN MDH within one business day (any reactive test)
 - » "Anonymous" testing is not completely anonymous
 - » In MN it is a criminal offense to knowingly "transfer" a communicable disease to another through "direct transmission"
 - » HIV+ individuals must disclose to sexual partners and those with whom they share needles (in a court of law, self-disclosure is a defense in the former, but not in the latter)
 - » But what about disclosure for those with undetectable viral load?

© 2020 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

19

DISCLOSURE AND VIRAL SUPPRESSION

- » In 2017, MDH joined several state health departments in supporting **Undetectable = Untransmittable (U=U)**
- » U=U is behind the concept of treatment as prevention
- » When an HIV+ person has a confirmed undetectable viral load within the last 12 months the MDH will not take partner notification action.
- » Partner notification is a practical precaution if there is any reason to believe that a partner may have been exposed to HIV.
- » Providers or people living with HIV may still carry out partner notification independently or with assistance from the MDH Partner Services Program.

© 2020 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

20

DISCLOSURE AND VIRAL SUPPRESSION

Precedent

The law basically says disclose or provide “practical means of preventing transmission”.

In Minnesota, a case has been tried where a person argued that they used a condom and therefore did not expose their partner, and they won the case. That precedent setting case informs us that in MN, a person could use a condom and not inform their partner of their HIV+ status and still be within their legal rights.

Most people feel like the U=U defense would be upheld in MN, but it hasn't happened (to their knowledge).

© 2020 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

21

GROUP DISCUSSION

Would a HIV+ virally suppressed individual need to disclose their status to the partner?

In a monogamous relationship with a virally suppressed individual, should the HIV- partner be on PrEP?

Use the “raise your hand” feature in Zoom or simply come off mute.

© 2020 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

22

DISCLOSURE AND VIRAL SUPPRESSION

Thoughts for Providers

- » Change the paradigm that people with HIV having sex is bad/risky to normalize people with HIV having sex.
- » Reduce the emotional charge often present to help people navigate this in a sensitive, client centered and less stigmatizing way.
- » Help people understand that most people with HIV are concerned about transmission, do what they need to reduce risk and that disclosure is a complex issue
- » Discuss and promote treatment as prevention

FUNDING AND POLICY CONSIDERATIONS

RYAN WHITE HIV/AIDS PROGRAM

- » Provides a comprehensive system of care for people living with HIV
- » Most funds support primary medical care and other medical-related and support services
- » Provides ongoing access to HIV medications
- » Small amount of funds used for technical assistance, clinical training, and development of innovative models of care

© 2009 Health Management Associates, Inc. All Rights Reserved.
HEALTH MANAGEMENT ASSOCIATES
25

RYAN WHITE HIV/AIDS PROGRAM

- »» Includes 5 Parts: A, B, C, D, and F
- »» Administered by the HIV/AIDS Bureau (HAB), within the Health Resources and Services Administration (HRSA)
- »» RWHAP Parts designed to work together to ensure a comprehensive system of care in urban, suburban, and rural communities throughout the U.S.
- »» **Payor of last resort**

© 2009 Health Management Associates, Inc. All Rights Reserved.
HEALTH MANAGEMENT ASSOCIATES
26

RYAN WHITE HIV/AIDS PROGRAM PART A

Part A – Epidemically/Geographically Targeted

- »» Funding for areas hardest hit by the HIV epidemic
- »» Funding for two categories of metropolitan areas:
 - »» **Eligible Metropolitan Areas** (EMAs), an area must have reported at least 2,000 AIDS cases in the most recent five years and have a population of at least 50,000.
 - »» **Transitional Grant Areas** (TGAs), an area must have reported 1,000 to 1,999 AIDS cases in the most recent five years and have a population of at least 50,000.
- »» Funds are used to develop or enhance access to a comprehensive system of high-quality community-based care for low-income PLWH

© 2009 Health Management Associates, Inc. All Rights Reserved.
HEALTH MANAGEMENT ASSOCIATES
27

RYAN WHITE HIV/AIDS PROGRAM PART B

Part B – All states

- »» Funding to all 50 States, DC, Puerto Rico, U.S. territories and jurisdictions to improve the quality, availability, and organization of HIV health care and support services
- »» Provides funds for medical and support services
- »» Includes the AIDS Drug Assistance Program (ADAP), which provides access to HIV-related medications, through direct purchase and purchase of health insurance
- »» Also provides funds to emerging communities with a growing epidemic, reporting 500-999 new cases in the past 5 years

© 2009 Health Management Associates, Inc. All Rights Reserved.
HEALTH MANAGEMENT ASSOCIATES
28

RYAN WHITE HIV/AIDS PROGRAM PART C

Part C – Early Intervention

- » Funding to support “**early intervention services**”: comprehensive primary health care and support services for PLWH in an outpatient setting
- » Competitive grants to local community-based organizations, community health centers, health departments, and hospitals
- » Priority on **services in rural areas** and for traditionally underserved populations
- » Capacity development grants provided to help public and nonprofit entities deliver HIV services more effectively

© 2008 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

29

RYAN WHITE HIV/AIDS PROGRAM PART D

Part D – Population Targeted

- » Funding to support family-centered HIV primary medical and support **services for women, infants, children, and youth** living with HIV
- » Competitive grants to local public and private health care entities, including hospitals, and public agencies
- » Includes services designed to engage **youth with HIV** and retain them in care
- » Recipients must coordinate with HIV education and prevention programs designed to reduce the risk of HIV infection among youth

© 2008 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

30

RYAN WHITE FEDERAL PROGRAMS PART F

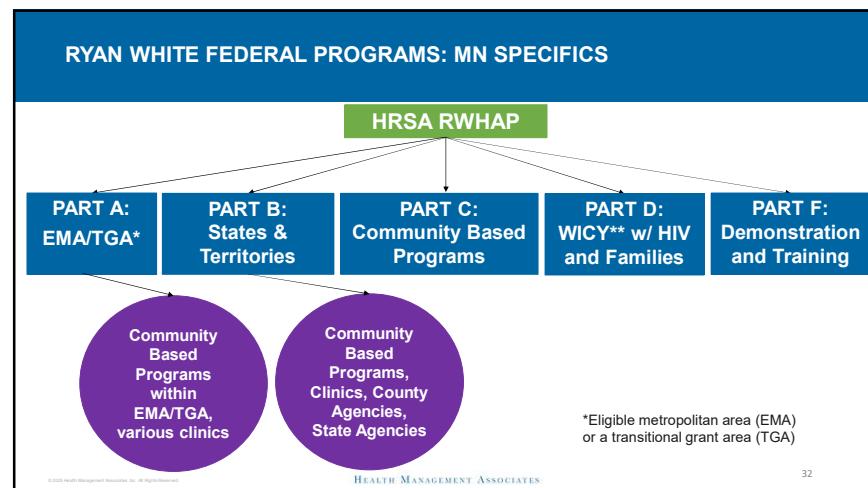

Part F – Dental and Special Funds

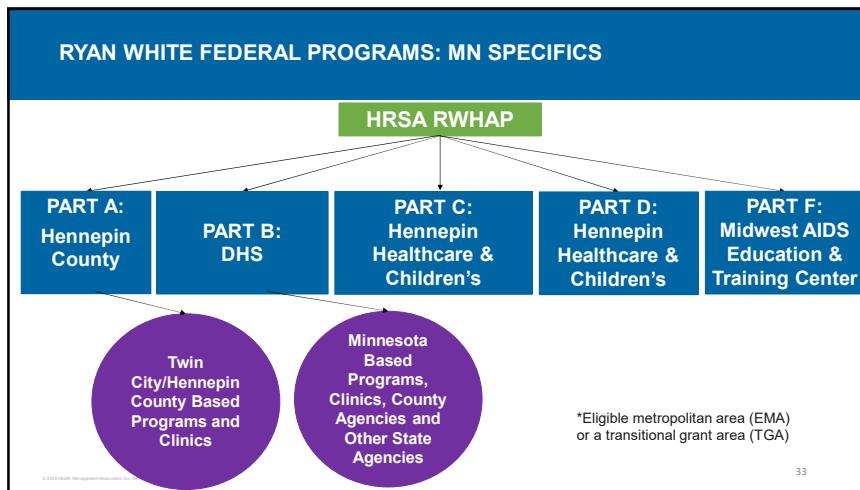

- » Funds support **clinician training, dental services, and dental provider training**. In addition, Part F funds the development of innovative models of care to improve health outcomes and reduce HIV transmission.
- » Funds Minority AIDS Initiative (MAI)
- » Funds Special Project of National Significance (SPNS)
- » Funds AIDS Education and Training Centers (AETCs)

ENDING THE HIV EPIDEMIC

The Ending the HIV Epidemic initiative focuses on four key strategies that, implemented together, can end the HIV epidemic in the U.S.

HEALTH MANAGEMENT ASSOCIATES

34

35

MINNESOTA'S STRATEGY TO END HIV

- » END HIV MN is a comprehensive long-term plan to end new HIV infections and improve health outcomes for people living with HIV in Minnesota.
- » This legislatively mandated plan was created over several years by the Minnesota Department of Health (MDH), the Minnesota Department of Human Services (DHS), and the Minnesota HIV Strategy Advisory Board.
- » The Minnesota Legislature identified four outcomes for END HIV MN.

HEALTH MANAGEMENT ASSOCIATES

36

END HIV MN: MEASURING SUCCESS: 4 AMBITIOUS GOALS

90%

Increase the percentage of Minnesotans living with HIV who know their HIV status to at least 90% by 2025

90%

Increase the percentage of Minnesotans diagnosed with HIV who are retained in care to at least 90% by 2025

90%

Of individuals retained in care increase the percentage of Minnesotans who are virally suppressed to at least 90% by 2025

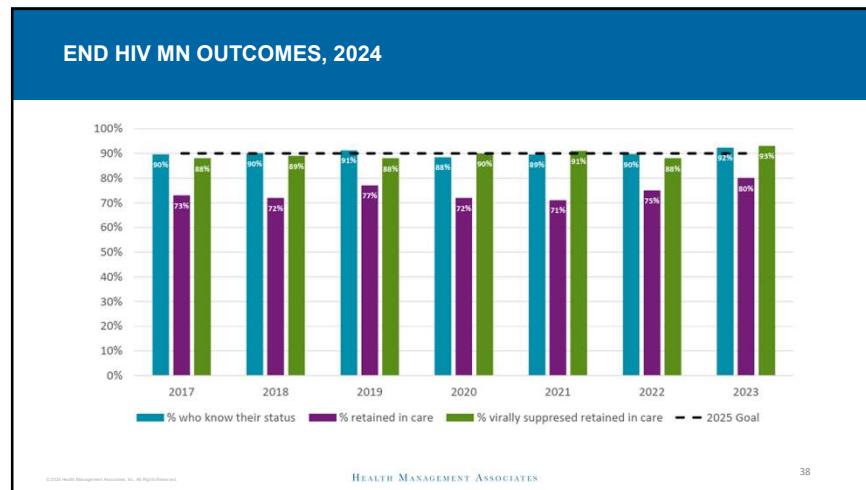

75%

Reduce the annual number of new HIV diagnoses in Minnesota by at least 25% by 2025 (225 cases) and at least 75% by 2035 (75 cases)

FUNDING CONT.

State Opioid Response Grants: \$1.5 Billion over 2 Years

The SAMHSA program aims to address the opioid crisis by increasing access to medication-assisted treatment using the three FDA-approved medications for the treatment of opioid use disorder, reducing unmet treatment need, and reducing opioid overdose related deaths through the provision of prevention, treatment and recovery activities for opioid use disorder (OUD) (including illicit use of prescription opioids, heroin, and fentanyl and fentanyl analogs).

This program also supports evidence-based prevention, treatment and recovery support services to address stimulant misuse and use disorders, including for cocaine and methamphetamine.

5-MINUTE STRETCH BREAK!

HIV RISK AND SUD HARM REDUCTION

LEARNING OBJECTIVES: HIV RISK AND SUD HARM REDUCTION

Identify at least 3 critical HIV sexual transmission risk reduction strategies	Define Harm Reduction as it relates to both SUD and HIV and describe at least 3 harm reduction strategies	Describe the current risks associated with synthetic opioids and specific harm reduction strategies to mitigate those	Describe the relationship between SUD and HIV risk
--	---	---	--

45

© 2020 Health Management Associates, Inc. All Rights Reserved.

DEFINITION OF HIV RISK REDUCTION

HIV risk reduction is the selective application of appropriate techniques and management principles to reduce the likelihood of a risky event and/or the negative consequences of such an event.

- » The goal of risk reduction counseling is to help patients decrease risks to themselves and others, thereby decreasing the number of new HIV infections.
- » Risk reduction helps decrease the rates of HIV infection through targeted prevention efforts.

46

© 2020 Health Management Associates, Inc. All Rights Reserved.

RISKS FOR HIV INFECTION

Risks for HIV infection

- » Unprotected sex
- » Sharing needles
- » Mother to child

Strategies for HIV prevention

- » Safer sex (condoms)
- » Routine testing
- » Antiretroviral advances
- » Viral suppression (U=U)
- » PrEP and PEP

KNOWLEDGE IS POWER TEST. PrEP. TREAT. greaterthan.org

© 2020 Health Management Associates, Inc. All Rights Reserved.

47

PrEP AND PEP

PrEP (pre-exposure prophylaxis) is medicine people at risk for HIV take to prevent getting HIV from sex or injection drug use. When taken as prescribed, PrEP is highly effective for preventing HIV.

PEP (post-exposure prophylaxis) means taking medicine to prevent HIV after a possible exposure. PEP should be used only in emergency situations and must be started within 72 hours after a recent possible exposure to HIV.

48

INJECTION DRUG USE AND HIV INFECTION

HIV and Hepatitis C

- » Syringe access programs
 - » A variety of syringes to match a variety of injecting practices
 - » Related supplies (e.g., alcohol swabs, ties/tourniquets, etc.)
- » Safe smoking supplies (e.g., clean pipes, straws, lip balm)
- » Sexual health supplies
- » Overdose prevention supplies and education
- » Health educators available for brief interventions
- » Test strips for Fentanyl and other drugs
- » Safe consumption sites
- » Opportunities for Hepatitis C and HIV testing and linkage

HEALTH MANAGEMENT ASSOCIATES

51

DEFINITION OF SUD HARM REDUCTION

Harm Reduction is a set of practical strategies and ideas aimed at reducing negative consequences associated with drug use.

Harm Reduction is also a movement for social justice built on a belief in, and respect for, the rights of people who use drugs.

National Harm Reduction Coalition

HEALTH MANAGEMENT ASSOCIATES

52

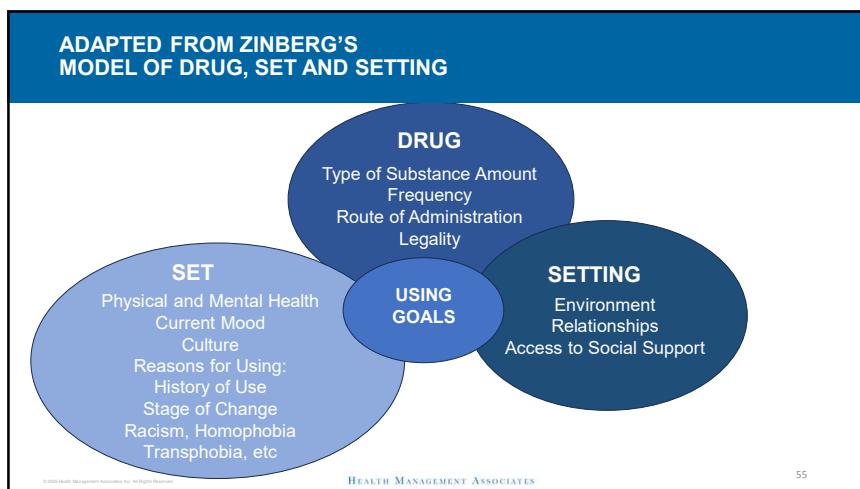

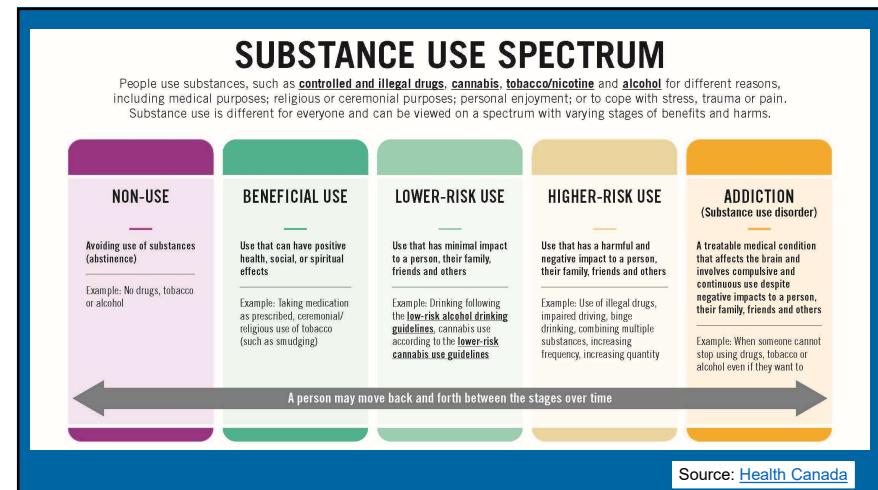

WHAT HARM REDUCTION PROVIDES

- » Non-judgmental support
- » A collaborative approach
- » An understanding that refraining from drug use may not be the only step in the healing process. Change can happen in other areas even while people are still using.
- » A strong belief in the client's capacity to care for themselves, including prevention of HIV and other drug related health concerns.
- » An educational approach
- » Allows for mental health and substance use concerns to be treated together
- » Supports self-trust, self-efficacy and autonomy
- » Client-centered, client-tailored services

56

HARM REDUCTION: SUBSTANCE USE + SEX

SAN FRANCISCO AIDS FOUNDATION PRESENTS

OD PREVENTION TIPS: SEX PARTIES

MAKE OD PREVENTION PART OF THE PRE-PARTY SAFETY PLAN.

DISCUSS WITH SEX PARTNERS BEFOREHAND WHAT STEPS THEY WOULD LIKE TO TAKE TO PREVENT AN OVERDOSE.

HAVE NARCAN AND WATER ON HAND.

IF SOMEONE TAKES TOO MUCH GHB, TURN THEM ON THEIR SIDE ("RESCUE POSITION") SO THEY DON'T CHOKED ON THEIR VOMIT.

DESIGNATE ONE PERSON TO CALL 911 AND ONE PERSON TO RESPOND. KNOW YOUR LOCATION AND WHERE THE NARCAN IS LOCATED.

© 2020 Health Management Associates, Inc. All Rights Reserved.

- » San Francisco AIDS Foundation - <https://www.sfaf.org/resource-library/safer-drug-use/>

OVERDOSE PREVENTION – METHAMPHETAMINES AND OPIATES

SAN FRANCISCO AIDS FOUNDATION PRESENTS

OD PREVENTION TIPS: METH

WHAT TO DO WHEN YOU GET WAY TOO HIGH ON STIMULANTS...

DRINK PLENTY OF WATER OR GATORADE.	GET SOME REST— SLEEP REALLY HELPS.	WALK IT OFF IF YOU CAN'T SLEEP.
REMEMBER TO EAT. EVEN A PIECE OF FRUIT OR A SMOOTHIE CAN REALLY HELP.		
COOL DOWN WITH AN ICE PACK IF YOU'RE OVERHEATED.		

CALL 911 IF YOU ARE EXPERIENCING CHEST PAIN, SHORTNESS OF BREATH, OR SIGNS OF STROKE OR SEIZURE.

SAN FRANCISCO AIDS FOUNDATION PRESENTS

OD PREVENTION TIPS: OPIATES

SOMEONE OVERDOsing ON OPIATES WILL NOT BE RESPONSIVE. THEY WON'T BE BREATHING, OR THEIR BREATHS WILL BE SLOW AND SHALLOW.

OTHER THINGS TO LOOK FOR:

BODY IS LIMP (OR STIFF)

SKIN COLOR CHANGES

COLOR TURNS GRAY OR ASHEN FOR DARKER SKIN. BLUSH-PURPLISH FOR LIGHTER SKIN. FINGERNAILS AND LIPS MAY TURN BLUE OR DARK PURPLE

NOISES

SNORING, CHOKING, OR GURGLING

VOMITING

© 2020 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

58

OVERDOSE PREVENTION – SAFER USE

SAN FRANCISCO AIDS FOUNDATION PRESENTS

OD PREVENTION TIPS: SAFER USING

GET HIGH WITH FRIENDS AND KEEP AN EYE ON EACH OTHER.

WHEN SMOKING FENTANYL, SMOKE A SMALL AMOUNT FIRST. YOU CAN ALWAYS DO MORE BUT YOU CAN'T DO LESS!

MAKE SURE EVERYONE HAS NARCAN AND YOU KNOW WHERE IT IS. HAVE IT READY!

HAVE SOMEONE NEARBY TO HELP IN CASE YOU OD.

WEAR A MASK AND KEEP 6 FT. DISTANCE FROM EACH OTHER TO PREVENT COVID-19.

© 2020 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

59

SAN FRANCISCO AIDS FOUNDATION PRESENTS

OD PREVENTION TIPS: GETTING HIGH ALONE

REMEMBER THAT YOU CAN ALWAYS DO MORE, BUT YOU CAN'T DO LESS.

HAVE SOMEONE ON THE PHONE WHILE YOU GET HIGH SO THEY CAN CALL FOR HELP IF YOU OD (BE SURE THEY KNOW YOUR LOCATION).

TRY DOING A SMALL AMOUNT FIRST TO SEE HOW STRONG IT IS.

TEXT YOUR LOCATION TO A FRIEND BEFORE USING. ASK THEM TO CHECK ON YOU, AND IF YOU DON'T TEXT BACK TO CALL 911.

CONSIDER ALTERNATE WAYS OF USING INSTEAD OF INJECTING:

SMOKING SNORTING BOOTY BUMPING

© 2020 Health Management Associates, Inc. All Rights Reserved.

OVERDOSE PREVENTION

» Overdose prevention includes messages, such as:

- Never Use Alone
- Do a test dose
- Go slow
- Don't stack doses
- Don't mix drugs, especially depressants
- Switch from injection to smoking
- Know signs of overdose and how to respond
- Always carry naloxone

NEVER USE ALONE

1-877-696-1996

Sources: Never Use Alone. (n.d.) Never use alone. <https://neverusealone.com>

NALOXONE (NARCAN) SAVES LIVES

- » **What is Naloxone?** A medication that can reverse an overdose.
- » **Signs of overdose:** Unconscious or not responding, not breathing or slow breathing, turning gray or ashen or bluish, gurgling noises, body is limp, skin is clammy.
- » **What to do?** Call their name loudly or clap your hands, sternum rub. If not responding, administer Narcan and call 911.
- » **Ways to administer Naloxone:** Nasal and Intramuscular
 - » Considerations in the Fentanyl era
- » **Who should carry Naloxone?** Everyone
- » MN Good Samaritan/Steve's Law
- » [Naloxone Partners](#)

61

WHY HARM REDUCTION FOR EFFECTIVE SUPPORT

- » Because it considers a spectrum use, not just drugs or no drugs
- » Because it sees drug use from an ecological lens, not just an individual lens
- » Because it can explore drug-set-setting
- » Because it allows **ambivalence** in the room
- » Because not all drug use is abuse or misuse
- » Because it's about support, not punishment (housing v/s drugs). Inclusion, not exclusion.
- » Because it reduces **stigma** (which is more harmful than drugs)
- » Because it is trauma informed
- » Because it starts from a place of compassion and love
- » Harm Reduction is Shame Reduction

67

STIGMA: FUNCTIONAL OUTCOMES AND CONSEQUENCES

Key Elements:

- Blame and Moral Judgment
- Pathologize and Patronize
- Fear and Isolation (the opposite of connection)
- Criminalize

Functional Outcomes of Stigma:

- Difference --- To keep people out
- Danger ---To keep people away
- Discrimination---To keep people down

HOW DOES STIGMA IMPACT PEOPLE WITH HIV & PEOPLE WHO USE DRUGS?

- » Incarceration
- » Limit to job opportunities
- » Limit to housing options
- » Limit to treatment options
- » Poor or unavailable healthcare services
- » Limit access to culturally concordant services
- » Fewer funds for research
- » Poor treatment for pain
- » Poor treatment for mental health concerns
- » Limit to job opportunities
- » Loss of parenting rights
- » Loss of reproductive rights
- » Disconnection from families or loved ones
- » People are less likely to ask for support
- » Possible hepatitis C (HCV) and sexually transmitted infections (STIs)
- » Lack of access to OD prevention
- » Lack of access to syringes

70

LANGUAGE

Remember:
Beverages are alcoholic,
not people

Laundry is dirty and clean,
not people

FIGURE 4: BETTER LANGUAGE

✓ USE	✗ DON'T USE
Person who uses drugs	Drug user
Person with non-problematic drug use	Recreational, casual, or experimental users
Person with drug dependence, person with problematic drug use, person with substance use disorder; person who uses drugs (when use is not problematic)	Addict; drug/substance abuser; junkie; dope head, pothead, smack head, crackhead etc.; druggie; stoner
Substance use disorder; problematic drug use	Drug habit
Has a X use disorder	Addicted to X
Abstinent; person who has stopped using drugs	Clean
Actively uses drugs; positive for substance use	Dirty (as in "dirty screen")
Respond, program, address, manage	Fight, counter, combat drugs and other combative language
Safe consumption facility	Fix rooms
Person in recovery, person in long-term recovery	Former addicts; reformed addict
Person who injects drugs	Injecting drug user
Opioid substitution therapy	Opioid replacement therapy

WHAT IS AMBIVALENCE?

what are other words for ambivalence?

uncertainty, indecision, doubt, hesitancy, hesitation, ambivalency, fluctuation, irresolution, tentativeness

© 2020 Health Management Associates, Inc. All Rights Reserved.

Thesaurus.plus
HEALTH MANAGEMENT ASSOCIATES

88

AMBIVALENCE

- » Many people are **ambivalent** about change.
- » Providers who push for specific change create conflict which reduces motivation for change.
- » Conflict perpetuates ambivalence.
- » **Evoking** the client's own **change talk** will enhance behavior change.
- » We don't have the power to make someone change – we can develop skills to **engage in and tolerate** conversations about the **possibility** of change.
- » People are usually motivated for something, find what that is and start there.

HEALTH MANAGEMENT ASSOCIATES

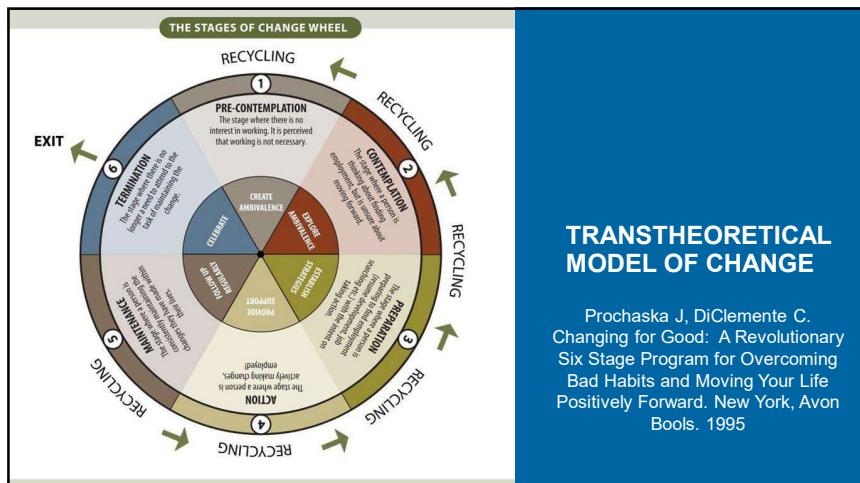

85

WHAT IS MOTIVATIONAL INTERVIEWING?

“MI is a collaborative, goal-oriented style of communication with particular attention to the language of change. It is designed to strengthen personal motivation for and commitment to a specific goal by eliciting and exploring the person’s own reasons for change within an atmosphere of acceptance and compassion.”

(Miller & Rollnick, 2013, p. 29)

9

TRANSTHEORETICAL MODEL OF CHANGE

Prochaska J, DiClemente C. *Changing for Good: A Revolutionary Six Stage Program for Overcoming Bad Habits and Moving Your Life Positively Forward*. New York, Avon Books. 1995

MOTIVATIONAL INTERVIEWING (MI) WORKS BEST WHEN...

- » **Ambivalence is high** and people are stuck in mixed feelings about change
- » **Confidence is low** and people doubt their abilities to change
- » **Desire is low** and people are uncertain about whether they want to make a change
- » **Importance is low** and the benefits of change and disadvantages of the current situation are unclear

97

AFFIRMATIONS

<p>What are they?</p> <ul style="list-style-type: none"> » Strengths and attributes » Successes » Hopes » Desires » Efforts to improve things » Humanity » Compassion 	<p>What are the results?</p> <ul style="list-style-type: none"> » Strengthen the relationships » Build trust » Support confidence and self-esteem » Build a meaningful working alliance
--	---

©2020 Health Management Associates, Inc. All Rights Reserved. **HEALTH MANAGEMENT ASSOCIATES**

98

AFFIRMATIONS

These statements should show appreciation for a client's challenges and achievements, however they are not meant to be "cheers" and shouldn't start with "I am".

"You really thought clearly about your next steps"
 "Wow, that must've taken a lot of courage"
 "You applied some self-care and it helped you stay calm"
 "You've achieved so much this week"
 "You are determined and continue to search for answers"

Stepping it Up – Affirmation + building experience and confidence

- » "You are staying alcohol-free in the face of many challenges", tell me how that feels...
- » "You are not avoiding difficult conversations, what is helping you do that?"

©2020 Health Management Associates, Inc. All Rights Reserved. **HEALTH MANAGEMENT ASSOCIATES**

99

REFLECTIONS

Reflective Listening:

When people are ambivalent, MI helps organize and integrate our mind, helping to create congruent decisions that make change possible.

Simple: Express that you understand what the client is saying and that you are listening

Complex: Step it up a notch by providing feedback or expanding on a feeling

Tips:

- » Avoid using the pronoun "I" (i.e., making the reflection about the listener)
- » Avoid negating change talk by using "and" instead of "but". Both realities exist at once.
- » Should be brief

©2020 Health Management Associates, Inc. All Rights Reserved. **HEALTH MANAGEMENT ASSOCIATES**

100

REFLECTIONS

Reflective Listening:

Tips:

» Avoid negating change talk by using “**and**” instead of “**but**”. Both realities exist at once.

"You are terrified of ending the relationship and you know it's the right thing to do"

"You want to stop using and you fear that you will not be able to succeed"

" You know that using could impact your housing and you keep using"

"You are motivated to stay healthy and you find it hard to take your meds"

© 2020 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

101

EXAMPLES OF REFLECTIONS

For the following scenario, suggest open-ended questions the provider could ask next.

Client: I like to party; I don't see a problem as long as I'm at home. It's when I leave the house that things get out of hand.

Provider: Things are fine when you party at home. Partying is different when you leave the house.

(What Open-ended question could you follow with here?)

Please raise your hand if you'd like to share

© 2020 Health Management Associates, Inc. All Rights Reserved.

HEALTH MANAGEMENT ASSOCIATES

102

SUMMARIES

» Summaries allow us to keep track of the session, ask more questions and find out if we are really understanding the client's unique situation.

» After you state a summary ask:

- “Did I get that right?”
- “Did I miss anything?”

» Encourage the client to “Use the **edit** button”. If your reflection is not accurate, say “edit me”.

Edit

DARNCAT Cheat sheet

DESIRE	I want to... I would like to... I wish...
Ask evocative questions	• Why do you want to make this change?
Ask for elaboration	• Why else might you want to make this change?
Ask for examples	• Tell me about some times over the last month when you really felt a strong wish to make this change.
Look back/look forward	• What may happen if things continue as they are? -OR- If you were 100% successful in making the change you want, what would be different?
Link behavior with values to develop discrepancy	• You have said that [value] is really important to you. How do you think [current behavior] impacts [value].
ABILITY	I could... I can... I would like to be able to...
Ask evocative questions	• How might you go about this change in order to succeed?
Ask for elaboration	• What other supports might help you be successful? How might others support you?
Ask for examples	• Give me an example of a time you made a change in your life. What strengths might you draw on to make a change? - OR - Tell me about a time in the past when you were able to make a change in your life.
Affirm small steps	• Tell me about how this change could be broken down into some smaller steps.
REASON	Specifies a particular rationale, basis, incentive, justification or motivation for the change
Ask evocative questions	• What are the reasons for making this change?
Ask for elaboration	• Why else might you consider this change?
Ask for examples	• Give me an example of how this change would affect your life.
Look back/look forward	• Tell me about a time before [the target behavior] emerged. How were things better/different?
Link behavior with values to develop discrepancy	• What are the pros and cons if things stay the same? -OR- If you were 100% successful in making the change you want, what would be different?
Decisional balancing	• You have said that [value] is important to you. How do you think [current behavior] impacts [value]?
Query extremes	• What are the pros and cons of making this change?
Readiness ruler	• What are the worst things that might happen if you don't make this change? What are the best things that might happen if you make this change?
NFED	I thought to... I have to... I should
Ask evocative questions	• How important is it for you to make this change?
Ask for elaboration	• Why is it so important to make this change?
Look back/look forward	• Tell me about a time before [the target behavior] emerged. How were things better/different?
Query extremes	• What may happen if things continue as they are? -OR- If you were 100% successful in making the change you want, what would be different?
Link behavior with values to develop discrepancy	• What are the worst things that might happen if you don't make this change? -OR- What are the best things that might happen if you do make this change?
	• You have said that [value] is really important to you. How do you think [current behavior] impacts [value]?

118

Developing proficiency in MI is like learning to play a musical instrument. Some initial instruction is helpful, but real skill develops over time with practice, ideally with feedback and consultation from knowledgeable others. As with other complex skills, gaining proficiency is a lifelong process.

- WILLIAM MILLER, 2008

119

WAYS TO INCORPORATE MI PRACTICE INTO YOUR WORK

- » Post-it notes in your workspace or find posters on Pinterest
- » Organize MI skills meetings once a month (many online curricula can guide you)
- » Send a MI video to the team and spend 10 min discussing it before a meeting.
- » Focus on one skill each week. It's Affirmations week!!!
- » Find films or shows with ambivalent characters and discuss what skills you could use.
- » Have a MI book club.
- » Practice with songs (Still, Should I stay or should I go, Please don't leave me, A million reasons).
- » Lift up good examples for recognition and review
- » Take advantage of cases with challenging patients or outcomes to review and role play as part of routine workflow such as
 - » During case reviews
 - » On rounds
 - » During supervision

GLOSSARY OF TERMS (REVISITED)

- » Sexual orientation – a person's identity in relation to the gender or genders to which they are sexually attracted (straight, gay, lesbian, asexual, bisexual, pansexual)
- » Gender identity and/or expression - internal perception of one's gender; how one identifies or expresses oneself.
 - » Cisgender – a term used to describe a person whose gender identity aligns with those typically associated with the sex assigned to them at birth
 - » Transgender – refers to an individual whose current gender identity and/or expression differs from the sex they were assigned at birth (may have transitioned or be transitioning in how they are living)
 - » Gender Expansive - refers to an individual who expresses identity along the gender spectrum (genderqueer, gender nonconforming, nonbinary, agender, two spirit)
- » Sexual Minority – refers to a group whose sexual identity orientation or practices differ from the majority of and are marginalized by the surrounding society.

GLOSSARY OF TERMS (REVISITED)

- » Race - is usually associated with inherited physical, social and biological characteristics. In this context that means race is associated with biology. Institutionalized in a way that has profound consequences (White, African American, American Indian Alaskan Native, Native Hawaiian or Pacific Islander")
- » Ethnicity - a term used to categorize a group of people with whom you share learned characteristics and identify according to common racial, national tribal, religious, linguistic, or cultural origin or background. (Hispanic, Non-Hispanic Black, Non-Hispanic Black, etc.)

GLOSSARY OF TERMS (REVISITED)

- » Health Insurance Portability and Accountability Act (HIPAA) - required the creation of national standards to protect sensitive patient health information (PHI) from being disclosed without the patient's consent and includes a Privacy Rule addressing disclosure of and access to PHI; the Security Rule protects disclosure of and access to electronic PHI (e-PHI) a subset of information covered by the Privacy Rule
- » Code of Federal Regulations, Title 42, Part 2 (42 CFR Part 2) – a complicated set of regulations that strengthen the privacy protections afforded to persons receiving alcohol and substance use treatment (in addition to the more general privacy protections afforded in HIPAA). The regulations restrict the disclosure and use of alcohol and drug patient records which are maintained in connection with any individual or entity that is federally assisted and holds itself out as providing, and provides, alcohol or drug abuse diagnosis, treatment or referral for treatment (42 CFR § 2.11)
- » Family Education Rights Protection Act (FERPA) - protects the privacy of student education records in public or private elementary, secondary, or post-secondary school and any state or local education agency that receives funds under an applicable program of the US Department of Education.
